

Schuylerville Central School District Preliminary SMART Schools Investment Plan

In November of 2014, NYS voters approved the SMART School Bond Act. The purpose of the initiative is to provide financing for educational technology and infrastructure and provide students with the latest technology and connecting needs. The NYS Education Department stipulates parameters on how to spend these funds; each district must submit an investment plan which allocates funds into certain categories. The district's facilities committee, which is comprised of board members, parents, teachers, and administrators, reviewed the scope of work.

The Schuylerville Central School District was allocated a total of \$1,398,244. The preliminary spending plan for these funds is as follows:

	Allocation
Connectivity Projects for Communities	
Classroom Technology	\$205,662
Pre-K Classrooms	
Replace Transportable Classrooms	
High Tech Security Features	\$911,000
School Connectivity	\$281,582

The Schuylerville Central School District investment plan includes three (3) main areas:

- Security System Upgrades
 - Replacement of exterior and interior cameras;
 - All exterior doors will be converted to electronic card access;
 - All exterior school windows will be security hardened.
- School Connectivity
 - Expansion of school classroom connectivity with robust wireless access for student and teacher devices within our 1:1 initiative and future on-line testing.
- Classroom Technology
 - Interactive display panels to replace aging smartboards at the K-12 level.
