A college education is increasingly necessary to secure the jobs of tomorrow. New York's tuition-free degree program, the **Excelsior Scholarship**, is the first of its kind in the nation. Once fully implemented, the Scholarship will make college possible for hundreds of thousands of students across the state and help to alleviate the crushing burden of student debt.

Please join New York State officials in a discussion to learn more about this new program, its benefits for current and future students and connecting students to jobs after graduation.
