# Student Council's Halloween Door Decorating Contest

This week, high school students were invited to collaboratively decorate the doors of their 1st period classes in a fun competition. All of the student entries were created in **just two days**, with students and teachers working during free periods, lunch and before/after school. Student created doors will be judged in three categories; **spookiest, most creative, and tickle my funnybone**. Teachers and staff without 1st period classes also joined in the fun and are competing in 'teacher orphan' and 'team effort' categories.

# Rules

The most important rule is **DO NOT vote for your own door**. Try to see as many of these doors in person as you travel to your classes this Thursday and Friday. These pictures just can't do some of these doors justice!

Submit your vote using the Door Decorating Google Form you recieved. You can only vote once. The winner will be announced Friday at the end of 9th period.
