Option 1 - Project Enrich

The Wow of Bow Wow/Helen Bemis

Gr. 3-8

Learn the language that dogs speak. Playing dog games and having visits from the local working and other dogs will highlight this class. Bonus bones will be earned for graduation prizes. You can have fun teaching Rover tricks so this will be an added bonus.

Option 2 - STEAM Academy

Artistic Adventure/Saratoga Children's Museum

Gr. 3-8

Step into this creative space and try your hand at different art techniques. Complete a multi-sensory art project that encourages self-expression and experimentation with different art mediums.

Build It Up/Saratoga Children's Museum

Gr. 3-5

Engineers are the great problem solvers of the world. This program introduces students to the world of engineering and the engineering design process. Learn how to think like an engineer as you design a solution to help solve our weekly dilemma.

Contraptions/Joel Jacko

Gr. 4-8

A Monster Truck and Car Rally...Design it, Construct it, and Power it! A variety of power sources will energize your vehicles. Use electric motors, rubber bands, balloons, or sails, you decide! Design and make a motorized vehicle that will travel as quickly as possible and accelerate with mass.

Get Wild!/Wilton Wildlife

Gr. 3-5

This interdisciplinary course explores the unique plants and animals of the Sandplains Ecosystem while covering the importance of environmental stewardship. Students will work together to conduct hands-on labs, experiments and create unique art projects.

Space Stations/Ken Santucci

Gr. 5-8

The purpose of space stations will be studied beginning with the Star Wars Death Star Station to the current ISS International Space Station. How do they get there, how do they stay, and are others being built are key topics which will be discussed. Lots of video and fun activities.
