Anatomy of a Comic Book / Saratoga Children's Museum

Gr. 3-6

Students will have the opportunity to put their creativity to the test as they develop characters and story lines best suited for their comic book creations. They will story board their ideas, illustrate their characters, and letter their own graphic margins in order to create their very own comic book.

Contraptions / Joel Jacko

Gr. 4-8

A Monster Truck and Car Rally...Design it, Construct it, and Power it! A variety of power sources will energize your vehicles. Use electric motors, rubber bands, balloons, or sails, you decide! Design and make a motorized vehicle that will travel as quickly as possible and accelerate with mass.

Get Wild / Wilton Wildlife

Gr. 3-5

This interdisciplinary course explores the unique plants and animals of the Sandplains Ecosystem while covering the importance of environmental stewardship. Students will work together to conduct hands-on labs, experiments and create unique art projects. Join us to work with real mammal skulls and furs, sculpt clay birds, and play ecosystem games. Don't miss out on this wild series!

Space Stations / Ken Santucci

Gr. 5-8

The purpose of space stations will be studied beginning with the Star Wars Death Star Station to the current ISS International Space Station. How do they get there, how do they stay, and are others being built are key topics which will be discussed. Lots of video and fun activities.

Visual Storytelling: Beyond the Selfie / Joan Lentini

Gr 5-8

Stories are powerful. Visual stories capture moments in the making. Using a smart phone or DSLR camera, students will learn basic techniques of composing a picture, how to develop a story idea and create visual images to bring it to life. The only limit you have is your imagination!!
