INDEPENDENT AUDITORS' REPORT

The Board of Education Schuylerville Central School District

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities and each major fund of the Schuylerville Central School District (the District), as of and for the year ended June 30, 2022, and the related notes to financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the District, as of June 30, 2022, and the respective changes in financial position, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in <u>Government Auditing Standards</u>, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matter

As described in note 13 to the financial statements, restatements of the prior period were made during the year ended June 30, 2022. Our opinions are not modified with respect to these matters.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and Government Auditing Standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis and the additional information on pages 51 through 54 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or

historical context. We have applied certain limited procedures to the required supplementary information in accordance GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying other supplementary information as listed in the table of contents and the schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with <u>Government Auditing Standards</u>, we have also issued our report dated October 17, 2022 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with <u>Government Auditing Standards</u> in considering District's internal control over financial reporting and compliance.

EFPR Group, CPAS, PLLC

Williamsville, New York October 17, 2022

Management's Discussion and Analysis
June 30, 2022

The following is a discussion and analysis of the Schuylerville Central School District's (the District) financial performance for the fiscal year ended June 30, 2022. This section is a summary of the District's financial activities based on currently known facts, decisions, or conditions. It is also based on both the District-Wide and Fund Financial Statements. The results of the current year are discussed in comparison with the prior year, with an emphasis placed on the current year. This section is only an introduction and should be read in conjunction with the District's financial statements, which immediately follow this section.

FINANCIAL HIGHLIGHTS

Key financial highlights for fiscal year 2022 are as follows:

- The proposed 2021-2022 budget in the amount of \$38,037,598 was authorized by the District's residents.
- The District's total net position, as reflected in the District-Wide financial statements increased to \$(43,894,094).
- The District continues to maintain its buildings and complete various District-Wide projects with amounts budgeted and authorized by the District's residents.
- New York State Law limits the amount of unassigned and assigned fund balance, exclusive of encumbrances and amounts designated for the subsequent year's budget, that can be retained by the General Fund, to 4% of the ensuing year's budget. At the end of the current fiscal year, the unassigned fund balance of the General Fund was \$5,677,515 or 14.70%, and therefore not within the statutory limit.
- The District made corrections to certain June 30, 2021 balances.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of four parts: management's discussion and analysis (MD&A) (this section), the basic financial statements, required supplementary information and other supplementary information. The basic financial statements include two kinds of statements that present different views of the District:

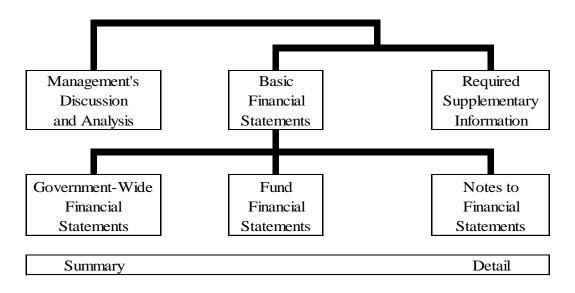

• The first two statements are District-Wide financial statements that provide both short-term and long-term information about the District's overall financial status.

Management's Discussion and Analysis, Continued

• The remaining statements are fund financial statements that focus on individual parts of the District, reporting the operations in more detail than the District-Wide financial Statements. The Governmental Fund Statements tell how basic services such as instruction and support functions were financed in the short term as well as what remains for future spending.

The notes to the basic financial statements provide additional information about the basic financial statements and the balances reported. The basic financial statements are followed by a section of required supplementary information that further explains and supports the financial statements with a comparison of the District's budget for the year. The following table shows how the various parts of this annual report are arranged and related to one another.

Organization of the District's Annual Financial Report

The following table summarizes the major features of the District's basic financial statements, including the portion of the District's activities that they cover and the types of information that they contain. The remainder of this overview section of MD&A highlights the structure and contents of each of the statements.

	paid	been received and the related liability is due
		and payable

District-Wide Financial Statements

The District-Wide financial statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Position includes all of the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources. All of the current year's revenue and expenses are accounted for in the statement of activities, regardless of when cash is received or paid.

The two District-Wide financial statements report the District's net position and how it has changed. Net position, the difference between the assets and deferred outflows of resources, and liabilities and deferred inflows of resources, is one way to measure the District's financial health or position.

Management's Discussion and Analysis, Continued

- Over time, increases and decreases in net position are an indicator of whether the financial position is improving or deteriorating, respectively.
- For assessment of the overall health of the District, additional non-financial factors such as changes in the District's property tax base and the condition of buildings and other facilities should be considered.

Net position of the governmental activities differ from the governmental fund balances because governmental fund level statements only report transactions using or providing current financial resources. Also, capital assets are reported as expenditures when financial resources are expended to purchase or build said assets. Likewise, the financial resources that may have been borrowed are considered revenue when they are received. The principal and interest payments are both considered expenditures when paid. Depreciation does not provide or reduce current financial resources. Finally, capital assets and long-term debt are both accounted for in account groups and do not affect the fund balances.

District-Wide financial statements are reported utilizing an economic resources measurement focus and full accrual basis of accounting that involves the following steps to format the statement of net position:

- Capitalize current outlays for capital assets;
- Report long-term debt as a liability;
- Depreciate capital assets and allocate the depreciation to the proper program/activities;
- Calculate revenue and expense using the economic resources measurement focus and the accrual basis of accounting; and
- Allocate net position balances as follows:
 - Net investment in capital assets;
 - Restricted net position are those with constraints placed on the use by external sources (creditors, grantors, contributors or laws or regulations of governments) or approved by law through constitutional provisions or enabling legislation; and
 - Unrestricted net position are net position that do not meet any of the above restrictions.

Fund Financial Statements:

The Fund Financial Statements provide more detailed information about the District's funds. Funds are accounting devices that the District uses to keep track of specific revenue sources and spending on particular programs. The funds have been established by the laws of the State of New York. The District has one kind of fund:

Management's Discussion and Analysis, Continued

• Governmental funds: Most of the basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the Governmental fund statements provide a detailed short-term view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the programs of the District. Because this information does not encompass the additional long-term focus of the District-Wide Financial Statements, additional information in a separate reconciliation schedule explains the relationship (or differences) between them. In summary, the Governmental Fund Financial Statements focus primarily on the sources, uses, and balances of current financial resources and often has a budgetary orientation. Included are the general fund, capital projects fund, special aid fund, school lunch fund, and other miscellaneous special revenue fund. Required statements are the Balance Sheet and the Statement of Revenue, Expenditures and Changes in Fund Balances.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

Net Position

The District's net deficit decreased by \$189,463 in the fiscal year ended June 30, 2022 as detailed in the table that follows.

	<u>2022</u>	<u>2021*</u>	<u>Change</u>
Assets:			
Current and other assets	\$ 15,433,847	14,509,223	924,624
Capital assets	49,828,998	51,347,573	(1,518,575)
Net pension assets	12,510,159	<u>-</u>	12,510,159
Total assets	77,773,004	65,856,796	11,916,208
Deferred outflows of resources	32,984,994	36,158,975	(3,173,981)
Liabilities:			
Current	5,145,146	5,638,193	(493,047)
Noncurrent	133,461,551	136,268,506	(2,806,955)
Total liabilities	138,606,697	141,906,699	(3,300,002)
Deferred inflows of resources	16,045,395	4,107,514	11,937,881
Net position:			
Net investment in capital assets	15,059,840	14,063,498	996,342
Restricted	5,773,828	4,393,136	1,380,692
Unrestricted (deficit)	(64,727,762)	(62,455,076)	(2,272,686)
Total net position (deficit)	\$ (43,894,094)	(43,998,442)	104,348

^{*} Restated for correction of errors

Management's Discussion and Analysis, Continued

Current assets increased \$924,624 primarily due to an increase in receivables due to grant funding.

Capital assets (net of depreciation) decreased \$1,518,575 primarily due current year depreciation exceeding current year additions and capital outlay. The net pension liability - proportionate share for the employees' retirement system and the teachers' retirement system resulted in net pension assets in the current year in the amount of \$12,510,159 as a result of the actuarial valuation provided by New York State.

The changes in deferred outflows of resources relate to changes in the District's pensions and other postemployment benefits plans. Factors affecting the District's pension plans include amortization of pension related items, contributions subsequent to the measurement date, and changes in actuarial assumptions. Factors affecting the District's other postemployment benefit plan include service costs, interest costs, and changes in actuarial assumptions.

Long-term liabilities decreased by \$2,806,955 which was primarily due to repayment of bonds payable.

The changes in deferred inflows of resources relate to changes in the District's pensions. Factors affecting the District's pension plans include amortization of pension related items, contributions subsequent to the measurement date, and changes in actuarial assumptions.

The net investment in capital assets relates to the investment in capital assets at cost such as land, construction in progress, buildings and improvements, and furniture and equipment, net of depreciation and related debt (including debt related items such as premiums and deferred charges). This number increased from the prior year by \$996,342 due to a decrease in long-term liabilities.

The restricted net position at June 30, 2022, relates to the District's reserves and restricted amounts for special purposes. Restricted net position increased by \$1,380,692.

The unrestricted net deficit at June 30, 2022 of \$(64,727,762) relates to the balance of the District's net position. The unrestricted net deficit increased by \$(2,272,686).

Management's Discussion and Analysis, Continued

Changes in Net Position

The results of operations as a whole are reported in the Statement of Activities. A summary of this statement for the years ended June 30, 2022 and 2021 are as follows:

Change in Net Position from Operating Results

	<u>2022</u>	2021*	<u>Change</u>
Revenue:			
Program revenue:			
Charges for services	\$ 488,306	368,924	119,382
Operating grants and contributions	2,472,881	1,507,925	964,956
General revenue:			
Property and other taxes	18,259,546	18,098,535	161,011
State aid	18,518,424	16,394,311	2,124,113
Other	1,173,412	1,000,877	172,535
Total revenue	40,912,569	37,370,572	3,541,997
Expenses:			
General support	5,939,657	6,126,903	(187,246)
Instruction	27,438,725	34,506,481	(7,067,756)
Pupil transportation	2,719,353	2,737,901	(18,548)
Cost of food sales	990,622	1,094,230	(103,608)
Interest	734,551	721,729	12,822
Depreciation - unallocated	2,985,313	1,941,268	1,044,045
Total expenses	40,808,221	47,128,512	(6,320,291)
Change in net position	\$ 104,348	(9,757,940)	9,862,288

^{*} Restated for correction of errors

The District's fiscal year 2022 revenue totaled \$40,912,569. Real property taxes and other tax items and state sources accounted for most of the District's revenue by contributing 44.6% and 45.3%, respectively of total revenue. The remainder came from fees charged for services, grants and contributions, use of money and property, and other miscellaneous sources.

The cost of all programs and services totaled \$40,808,221 for fiscal year 2022. These expenses are predominantly related to instruction, which account for 67.2% of District expenses.

The users of the District's programs financed \$2,961,187 of the cost. The federal and state governments along with external donors subsidized certain programs with grants and contributions of \$2,472,881. The remainder of the District's net costs were financed primarily by District taxpayers and state sources.

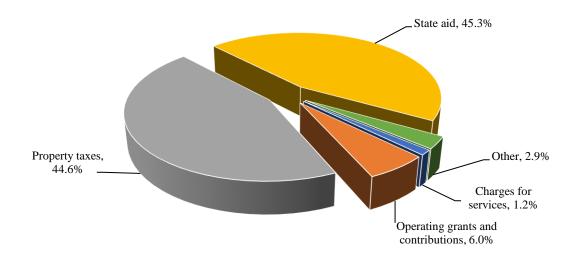

Management's Discussion and Analysis, Continued

Governmental Activities:

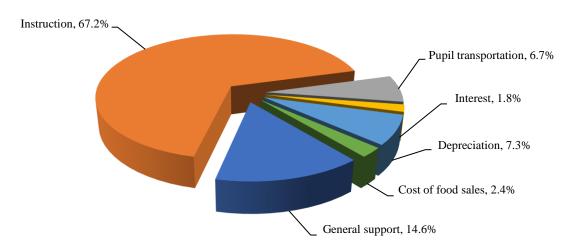

The continuation of the overall financial position will be positive and is due to the following:

- Continued leadership of the District's Board and administration;
- Strategic use of services from BOCES;
- Improved curriculum and community support.

Revenue for Fiscal Year 2022

Expenses for Fiscal Year 2022

Management's Discussion and Analysis, Continued

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

Variances between years for the fund financial statements are not the same as variances between years for the District-Wide financial statements. The District's governmental funds are presented on the current financial resources measurement focus and the modified accrual basis of accounting. Based on this presentation, governmental funds do not include long-term liabilities, certain deferred outflows or inflows, and capital assets purchased by the District. Governmental funds will include the proceeds received from the issuance of debt, the current payments for capital assets, and the current payments for debt, and the current payments on other long-term liabilities.

As of June 30, 2022, the District's combined governmental funds reported a total fund balance of \$13,426,463, which is an increase of \$1,371,156 from the prior year.

A summary of the change in fund balance for all the funds is as follows:

	2022	<u>2</u>	<u>2021*</u>	<u>Change</u>
General fund:				
Restricted:				
Tax certiorari	\$ 5	,246	5,246	-

Total fund balance - all funds	<u>\$ 1</u>	3,426,463	12,055,307	1,371,156

^{*} Restated for correction of errors

GENERAL FUND BUDGETARY HIGHLIGHTS

2021-2022 Budget

The District's general fund adopted budget for the fiscal year ended June 30, 2022 was \$38,037,598. This amount was increased by encumbrances carried forward from the prior year in the amount of \$1,176,534 bringing the final budget to \$39,214,132.

Change in the General Fund Unassigned Fund Balance (Budget to Actual)

The general fund unassigned fund balance is a component to total fund balance that is the residual of prior years' excess revenue over expenditures, net of transfers to reserves and assignments to fund subsequent years' budget. It is this balance that is commonly referred to as fund balance. The change in this balance demonstrated through a comparison of the actual revenue and expenditures for the year compared to budget are as follows:

Opening, unassigned fund balance	\$ 2,864,798
Revenue over budget	2,925,354
Expenditures and encumbrances under budget	1,399,309
Funding to reserves	(203,620)
Assigned, appropriated for June 30, 2023	(<u>1,308,326</u>)
Closing, unassigned fund balance	\$ <u>5,677,515</u>

The opening unassigned fund balance of \$2,864,798 is the June 30, 2021 unassigned fund balance. This balance reflects corrections of errors of June 30, 2021 balances.

Management's Discussion and Analysis, Continued

The revenue over budget of \$2,925,354 were primarily in state aid. Refer to the Schedule of Revenue, Expenditures and Changes in Fund Balance - Budget and Actual - General Fund for more details.

The expenditures and encumbrances under budget of \$1,399,309 reflect savings across the budget. Refer to the Schedule of Revenue, Expenditures and Changes in Fund Balance - Budget and Actual - General Fund for more details.

The District allocated \$203,620 to reserves based on Board of Education approved resolutions.

The District has chosen to use \$1,308,326 of its available June 30, 2022 fund balance to partially fund its 2022-2023 approved operating budget.

The District will close the 2021-2022 fiscal year with \$5,677,515 in unassigned fund balance. New York State Real Property Tax Law \$1318 restricts this number to an amount not greater than 4% of the District's budget for the ensuing fiscal year. The District's unassigned fund balance is not within this legal limit.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

The District paid for equipment, and various building additions and renovations during the 2022 fiscal year. A summary of the District's capital assets are as follows:

Capital Assets

		<u>2022</u>	<u>2021</u>	<u>Change</u>
Land	\$	147,800	147,800	-
Construction in progress		-	24,547,915	(24,547,915)
Buildings	4	13,239,324	43,239,324	-
Equipment and furniture	2	28,543,927	2,921,702	25,622,225
Accumulated depreciation	(2	22,102,053)	(19,509,168)	(2,592,885)
Total	\$ 4	19,828,998	51,347,573	(1,518,575)

Management's Discussion and Analysis, Continued

Long-Term Debt

At June 30, 2022, the District had total debt payable of \$32,786,660. The decrease is due to principal payments made in the current year which exceeded the amount of the new installment purchase agreement. A summary of outstanding debt at June 30, 2022 and 2021 is as follows:

	<u>2022</u>	<u>2021*</u>	<u>Change</u>
Bonds payable	\$31,745,000	34,515,000	(2,770,000)
Installment purchase agreements	1,041,660	577,021	464,639
Total	\$ 32,786,660	35,092,021	(2,305,361)

^{*} Restated for correction of errors

FACTORS BEARING ON THE DISTRICT'S FUTURE

The general fund budget for the 2022-2023 school year in the amount of \$38,609,553 was approved by voters. This represents an increase of \$571,955 over the previous year's budget.

Future budgets may be negatively affected by certain trends impacting school districts. These factors include rising health care premiums, increased costs associated with meeting the requirements for instructional services and the property tax cap which will continue to impact the District's ability to fund its current cost of services.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide citizens, taxpayers, customers, and investors and creditors with a general overview of the finances of the District and to demonstrate our accountability with the money we receive. If you have any questions about this report or need additional financial information, contact:

Change in net position of governmental activities

\$ 104,348

Notes to Financial Statements
June 30, 2022

(1) Summary of Significant Accounting Policies

The financial statements of the Schuylerville Central School District (the District) have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. Those principles are prescribed by the Governmental Accounting Standards Board (GASB), which is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. Significant accounting principles and policies utilized by the District are described below:

(a) Reporting Entity

The District is governed by the laws of New York State (the State). The District is an independent entity governed by an elected Board of Education consisting of seven members. The President of the Board serves as the chief fiscal officer and the Superintendent is the chief executive officer. The Board is responsible for, and controls all activities related to public school education within the District. Board members have authority to make decisions, power to appoint management, and primary accountability for all fiscal matters.

The reporting entity of the District is based upon criteria set forth by GASB Statement 14 - "The Financial Reporting Entity." The financial reporting entity consists of the primary government, organizations for which the primary government is financially accountable and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

The accompanying financial statements present the activities of the District. The District is not a component unit of another reporting entity. The decision to include a potential component unit in the District's reporting entity is based on several criteria including legal standing, fiscal dependency, and financial accountability. Based on the application of these criteria, the following is a brief description of certain entities included in the District's reporting entity.

(i) Extraclassroom Activity Funds

The extraclassroom activity funds of the District represent funds of the students of the District. The Board of Education exercises general oversight of these funds. The extraclassroom activity funds are independent of the District with respect to its financial transactions and the designation of student management. Separate audited financial statements of the extraclassroom activity funds can be found in the District's business offices. The District accounts for assets held as an agent for various student organizations in the miscellaneous special revenue fund.

Notes to Financial Statements, Continued

(1) Summary of Significant Accounting Policies, Continued

(b) Joint Venture

The District is a component district in Washington Saratoga Warren Hamilton Essex Counties Board of Cooperative Educational Services (BOCES). A BOCES is a voluntary, cooperative association of school districts in a geographic area that shares planning, services, and programs which provide educational and support activities. There is no authority or process by which a school district can terminate its status as a BOCES component.

BOCES are organized under §1950 of the New York State Education Law. A BOCES Board is considered a corporate body. Members of a BOCES Board are nominated and elected by their component member boards in accordance with provisions of §1950 of the New York State Education Law. All BOCES property is held by the BOCES Board as a corporation (§1950(6)). In addition, BOCES Boards also are considered municipal corporations to permit them to contract with other municipalities on a cooperative basis under §119-n(a) of the New York State General Municipal Law.

A BOCES' budget is comprised of separate budgets for administrative, program and capital costs. Each component district's share of administrative and capital cost is determined by resident public school district enrollment, as defined in the New York State Education Law, §1950(4)(b)(7). In addition, component districts pay tuition or a service fee for programs in which its students participate.

During the year, the District was billed \$2,736,936 for BOCES administrative and program costs. The District's share of BOCES aid amounted to \$2,430,781.

Financial statements for the BOCES are available from the BOCES administrative office.

(c) Basis of Presentation

(i) District-Wide Statements

The Statement of Net Position and the Statement of Activities present financial information about the District's governmental activities. These statements include the financial activities of the overall government in its entirety. Eliminations have been made to minimize the double counting of internal transactions. Governmental activities generally are financed through taxes, State aid, intergovernmental revenue, and other exchange and non-exchange transactions. Operating grants include operating-specific and discretionary (either operating or capital) grants, while the capital grants column reflects capital-specific grants.

Notes to Financial Statements, Continued

(1) Summary of Significant Accounting Policies, Continued

(c) Basis of Presentation, Continued

(i) District-Wide Statements, Continued

The Statement of Activities presents a comparison between direct expenses and program revenue for each function of the District's governmental activities. Direct expenses are those that are specifically associated with and are clearly identifiable to a particular function. Indirect expenses, principally employee benefits, are allocated to functional areas in proportion to payroll expended in those areas. Program revenue include charges paid by the recipients of goods or services offered by the programs, and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenue that are not classified as program revenue, including all taxes, are presented as general revenue.

(ii) Fund Statements

The fund statements provide information about the District's funds. Separate statements for each fund category, governmental and fiduciary, are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. The following are the district's funds:

<u>General Fund</u> - This is the District's primary operating fund. It accounts for all financial transactions that are not required to be accounted for in another fund.

<u>Capital Projects Funds</u> - These funds are used to account for the financial resources used for acquisition, construction, or major repair of capital facilities.

<u>Special Revenue Funds</u> - These funds account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. Special revenue funds include the following:

<u>Special Aid Fund</u> - Used to account for proceeds received from the State and Federal grants that are restricted for specific educational programs.

<u>School Lunch</u> - Used to account for child nutrition activities whose funds are restricted as to use.

<u>Miscellaneous Special Revenue</u> - Used to account for and report those revenue that are restricted and committed to expenditures for specified purposes.

(d) Measurement Focus and Basis of Accounting

Accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources or economic resources. The basis of accounting indicates the timing and transactions or events for recognition in the financial statements.

Notes to Financial Statements, Continued

(1) Summary of Significant Accounting Policies, Continued

(d) Measurement Focus and Basis of Accounting, Continued

The District-Wide and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash transaction takes place. Nonexchange transactions, in which the District gives or receives value without directly receiving or giving equal value in exchange, include property taxes, grants and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

(d) Measurement Focus and Basis of Accounting

The fund statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenue is recognized when measurable and available. The District considers all revenue reported in the governmental funds to be available if the revenue is collected within 90 days after the end of the fiscal year.

Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

(e) Real Property Taxes

Real property taxes are levied annually by the Board of Education no later than August 31, and become a lien on August 31. Taxes are collected during the period September 1, to November 2.

Uncollected real property taxes are subsequently enforced by the County in which the District is located. The County pays an amount representing uncollected real property taxes to the District no later than the following April 1.

(f) Restricted Resources

When an expense is incurred for purposes for which both restricted and unrestricted net position are available, the District's policy concerning which to apply first varies with the intended use, and with associated legal requirements, many of which are described elsewhere in these notes.

Notes to Financial Statements, Continued

(1) Summary of Significant Accounting Policies, Continued

(g) Interfund Transactions

The operations of the District include transactions between funds. These transactions may be temporary in nature, such as with interfund borrowings. The District typically loans resources between funds for the purpose of providing cash flow. These interfund receivables and payables and expected to be repaid with one year. Permanent transfers of funds include the transfer of expenditure and revenue to provide financing or other services. In the District-Wide statements, eliminations have been made for all interfund receivables and payables between the funds.

The governmental funds report all interfund transactions as originally recorded. Interfund receivables and payables may be netted on the accompanying governmental funds balance sheet when it is the District's practice to settle these amounts at a net balance based upon the right of legal offset.

(h) Estimates

The preparation of financial statements in accordance with GAAP requires management to make estimates an assumption that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported revenue and expenses during the reporting period. Actual results could differ from these estimates. Estimates and assumptions are made in a variety of areas, including computation of encumbrances, compensated absences, potential contingent liabilities and useful lives of long-lived assets.

(i) Cash and Equivalents

The District's cash and equivalents consist of cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

New York State law governs the District's investments policies. Resources must be deposited in Federal Deposit Insurance Corporation (FDIC) insured commercial banks or trust companies located within the State. Permissible investments include obligations of the United States Treasury, United States Agencies, repurchase agreements and obligations of the State or its localities.

Collateral is required for demand and time deposits and certificates of deposits not covered by FDIC insurance. Obligations that may be pledged as collateral are obligations of the United States and its agencies and obligations of the State and its municipalities and Districts.

Notes to Financial Statements, Continued

(1) Summary of Significant Accounting Policies, Continued

(j) Accounts Receivable

Receivables are shown gross, with uncollectible amounts recognized under the direct writeoff method. No allowance for uncollectible accounts has been provided since it is believed that such allowance would not be material.

(k) Inventories and Prepaid Items

Inventories of food in the school lunch fund are recorded at cost on a first-in first-out basis, or in a case of surplus food, at stated value that approximates market. Purchases of inventoriable items in other funds are recorded as expenditures at the time of purchase, and are considered immaterial in amount.

Prepaid items represent payments made by the District for which benefits extend beyond year-end. These payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the District-Wide and fund financial statements. These items are reported as assets on the Statement of Net Position or Balance Sheet using the consumption method. A current asset for the prepaid amounts is recorded at the time of purchase and an expense/expenditure is reported in the year the goods or services are consumed.

(1) Capital Assets

Capital assets are reported at actual cost. For assets acquired prior to July 1, 2003, estimated historical costs, based on appraisals conducted by independent third-party professionals were used. Donated assets are reported at estimated fair market value at the time received.

Capitalization thresholds (the dollar value above which asset acquisitions are added to the capital asset accounts), depreciation methods, and estimated useful lives of capital assets reported in the District-Wide statements are as follows:

	Capitalization Threshold	Depreciation Method	Estimated Useful Life
Buildings	\$ 5,000	Straight-Line	50 years
Building improvements	5,000	Straight-Line Straight-Line	50 years
Site improvements	5,000	Straight-Line	20 years
Furniture and equipment	5,000	Straight-Line	5-10 years
Infrastructure	5,000	Straight-Line	20 years

Notes to Financial Statements, Continued

(1) Summary of Significant Accounting Policies, Continued

(m) Deferred Outflows and Inflows of Resources

Deferred outflows of resources represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District has two items that qualify for reporting in this category. These amounts are related to pensions and other postemployment benefits liability reported in the District-Wide statement of net position.

Deferred inflows of resources represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until then. The District has two items that qualify for reporting in this category. The first is related to pensions, which are reported in the District-Wide statement of net position. The second is unearned revenue.

(n) Unearned Revenue

The district reports unearned revenue on its Statement of Net Position and its Balance Sheet. On the Statement of Net Position, unearned revenue arises when resources are received by the district before it has legal claim to them, as when grant monies ae received prior to incurrence of qualifying expenditures. In subsequent periods, when the District has legal claim to resources, the liability for unearned revenue is removed and the revenue is recognized.

(o) Compensated Absences

Compensated absences consist of unpaid accumulated annual sick leave, vacation, and sabbatical time.

Sick leave eligibility and accumulation is specified in negotiated labor contracts, and in individual employment contracts. Upon retirement, resignation or death, employees may contractually receive a payment based on unused accumulated sick leave.

District employees granted vacation in varying amounts, based primarily on length of service and service position. Some earned benefits may be forfeited if not taken within varying time periods.

Consistent with GASB Statement 16 - "Accounting for Compensated Absences," the liability has been calculated using the vesting/termination method and an accrual for that liability is included in the District-Wide financial statements. The compensated absences liability is calculated based on the pay rates in effect at year-end.

In the funds statements only the amount matured liabilities is accrued within the General Fund based upon expendable and available financial resources. These amounts are expensed on a pay-as-you go basis.

Notes to Financial Statements, Continued

(1) Summary of Significant Accounting Policies, Continued

(p) Other Benefits

District employees participate in the New York State and Local Employees' Retirement System and the New York State Teachers' Retirement System.

In addition to providing pension benefits, the District provides postemployment health insurance coverage and survivor benefits to retired employees and their survivors in accordance with the provision of various employment contracts in effect at the time of retirement. Substantially all the district's employees may become eligible for these benefits if they reach normal retirement age while working for the district. Health care benefits are provided through plans whose premiums are based on the benefits paid during the year. The District recognizes the cost of providing health insurance by recording its share of insurance premiums as expenditure.

(q) Short-Term Debt

The District may issue Revenue Anticipation Notes (RAN) and Tax Anticipation Notes (TAN), in anticipation of the receipt of revenue. These notes are recorded as a liability of the fund that will actually receive the proceeds from the issuance of the notes. The RANs and TANs represent a liability that will be extinguished by the use of expendable, available resources of the fund.

The District may issue Bond Anticipation Notes (BAN), in anticipation of proceeds from the subsequent sale of bonds. These notes are recorded as current liabilities of the funds that will actually receive the proceeds from the issuance of bonds. State law requires that BANs issued for capital purposes are converted to long-term financing within five years after the original issue date.

(r) Accrued Liabilities and Long-Term Obligations

Payables, accrued liabilities, and long-term obligations are reported in the District-Wide financial statements. In the governmental funds, payables, and accrued liabilities are paid in a timely manner and in full from current financial resources. Claims and judgments, other postemployment benefits and compensated absences that will be paid from governmental funds, are reported as a liability in the funds financial statements only to the extent that they are due for payment in the current year. Bonds and other long-term obligations that will be paid from governmental funds are recognized as a liability in the fund financial statements when due.

Long-term obligations represent the District's future obligations or future economic outflows. The liabilities are reported as due in one year or due within more than one year in the Statement of Net Position.

Notes to Financial Statements, Continued

(1) Summary of Significant Accounting Policies, Continued

(s) Net Position/Fund Balance

Order of Use of Fund Balance

The District's policy is to apply expenditures against nonspendable fund balance, restricted fund balance, committed fund balance, assigned fund balance, and unassigned fund balance at the end of the fiscal year. For all funds, nonspendable fund balances are determined first and then restricted fund balances for specific purposes are determined. Any remaining fund balance amounts for funds other than the General Fund are classified as restricted fund balance. In the general fund, committed fund balance is determine next and then assigned. The remaining amounts are reported as unassigned. Assignments of fund balance cannot cause a negative unassigned fund balance.

District-Wide Statements

In the District-Wide statements there are three classes of net position:

- <u>Net Investment in capital assets</u> consists of capital assets reduced by outstanding balances of related debt obligations from the acquisition, constructions or improvements of those assets.
- <u>Restricted net position</u> reports net position when constraints placed on the assets are either externally imposed by creditors (such as through debt covenants), granters, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.
- <u>Unrestricted net position</u> reports all other net position that does not meet the definition of the above two classifications and are deemed to be available for general use by the District.

Funds Statements

- <u>Nonspendable</u> Includes amounts that cannot be spent because they are either not in spendable form or legally or contractually required to be maintained intact. Nonspendable fund balance includes the inventory recorded in the school lunch fund.
- <u>Restricted</u> Includes amounts with constraints placed on the use of resources either externally imposed by creditors, granters, contributors or laws or regulations of other governments; or imposed by law through constitutional provisions or enabling legislation. The District may established the following restricted fund balances:

Capital Reserve

Capital Reserve (Education Law §3651) is used to pay the cost of any object or purpose for which bonds may be issued. The creation of a capital reserve fund requires authorization by a majority of the voters establishing the purpose of the reserve; the ultimate amount, its probable term and the source of the funds. Expenditure may be made from the reserve only for a specific purpose further authorized by the voters. The form for the required legal notice for the vote on establishing and funding the reserve and the form of the proposition to be placed on the ballot are set forth in §3651 of the Education Law. This reserve is accounted for in the General Fund and the Capital Projects Fund.

Notes to Financial Statements, Continued

(1) Summary of Significant Accounting Policies, Continued

(s) Net Position/Fund Balance, Continued

Repair Reserve

Repair Reserve (GML §6-d) is used to pay the cost of repairs to capital improvements or equipment, which repairs are of a type not recurring annually. The Board of Education without voter approval may establish a repair reserve fund by a majority vote of its members. Voter approval is required to fund this reserve (Opinion of the New York State Comptroller 81-401). Expenditures from this reserve may be made only after a public hearing has been held, except in emergency situations. If no hearing is held, the amount expended must be repaid to the reserve fund over the next two subsequent fiscal years. This reserve is accounted for in the general fund.

Workers' Compensation Reserve

Workers' Compensation Reserve (GML §6-j) is used to pay for compensation benefits and other expenses authorized by Article 2 of the Workers' Compensation Law, and for payment of expenses of administering this self-insurance program. The reserve may be established by Board action, and is funded by budgetary appropriations and such other funds as may be legally appropriated. Within sixty days after the end of any fiscal year, excess amounts may either be transferred to another reserve or the excess applied to the appropriations of the next succeeding fiscal year's budget. The reserve is accounted for in the general fund.

Unemployment Insurance Reserve

Unemployment Insurance Reserve (GML §6-m) is used to pay the cost of reimbursement to the State Unemployment Insurance Fund for payments made to claimants where the employer has elected to use the benefit reimbursement method. The reserve may be established by Board action and is funded by budgetary appropriations and such other funds as may be legally appropriated. Within sixty days after the end of any fiscal year, excess amounts may either be transferred to another reserve or the excess applied to the appropriations of the next succeeding fiscal year's budget. If the District elects to convert to tax (contribution) basis, excess resources in the fund over the sum sufficient to pay pending claims may be transferred to any other reserve fund. This reserve is accounted for in the general fund.

Notes to Financial Statements, Continued

(1) Summary of Significant Accounting Policies, Continued

(s) Net Position/Fund Balance, Continued

Insurance Reserve

Insurance Reserve is used to pay liability, casualty and other types of losses, except losses incurred for which the following types of insurance may be purchased: life, accident, health, annuities, fidelity and surety, credit, title residual value and mortgage guarantee. In addition, this reserve may not be used for any purpose for which a special reserve may be established pursuant to law (for example, for unemployment compensation insurance). The reserve may be established by Board action, and funded by budgetary appropriations, or such other funds as may be legally appropriated. There is no limit on the amount that may be accumulated in the insurance reserve; however, the annual contribution to this reserve may not exceed the greater of \$33,000 or 5% of the budget. Settled or compromised claims up to \$25,000 may be paid from the reserve without judicial approval. The reserve is accounted for in the general fund.

Property Loss Reserve and Liability Reserve

Property Loss Reserve and Liability Reserve (Education Law §1709(8)(c)) are used to pay for property loss and liability claims incurred. Separate funds for property loss and liability claims are required, and these reserves may not in total exceed 3% of the annual budget or \$15,000, whichever is greater. This type of reserve fund may be utilized only by school districts, except city school districts with a population greater than 125,000. These reserves are accounted for in the general fund.

Tax Certiorari Reserve

Tax Certiorari Reserve (Education Law §3651.1-a) is used to establish a reserve fund for tax certiorari and to expend from the fund without voter approval. The monies held in the reserve shall not exceed the amount which might reasonably be deemed necessary to meet anticipated judgments and claims arising out of tax certiorari proceedings. Any resources deposited to the reserve which are not expended for tax certiorari proceedings in the year such monies are deposited must be returned to the general fund on or before the first day of the fourth fiscal year after deposit of these monies. The reserve is accounted for in the general fund.

Reserve for Insurance Recoveries

Reserve for Insurance Recoveries (Education Law §1718(2)) is used at the end of the fiscal year to account for unexpended proceeds of insurance recoveries. They will be held there pending action by the Board on their disposition. This reserve will not be used if the insurance recovery is expended in the same fiscal year in which it was received. The reserve is accounted for in the general fund.

Notes to Financial Statements, Continued

(s) Net Position/Fund Balance, Continued

Employee Benefit Accrued Liability Reserve

Reserve for Employee Benefit Accrued Liability (GML §6-p) is used to reserve funds for the payment of accrued employee benefit due an employee upon termination of the employee's service. This reserve may be established by a majority vote of the Board, and is funded by budgetary appropriations and such other reserves and funds that may be legally appropriated. The reserve is accounted for in the general fund.

Retirement Contribution Reserve

Retirement Contribution Reserve (GML §6-r) is used for the purpose of financing retirement contributions. The reserve must be accounted for separate and apart from all other funds and a detailed report of the operation and condition of the fund must be provided by the Board.

Reserve for TRS Retirement Contributions

- Reserve for TRS Retirement Contributions is used to reserve funds to be used for TRS retirement costs in accordance with GML §6-r of the State of New York. This reserve is accounted for in the General Fund.
- <u>Committed</u> Includes amounts that can only be used for the specific purposes pursuant to constraints imposed by formal action of the school districts highest level of decision making authority, i.e., the Board of Education. The District has no committed fund balances as of June 30, 2022.
- <u>Assigned</u> Includes amounts that are constrained by the District's intent to be used for specific purposes, but are neither restricted nor committed. All encumbrances of the General Fund are classified as assigned fund balance. The amount appropriated for the subsequent year's budget of the General Fund is also classified as assigned fund balance.
- <u>Unassigned</u> Includes all other General Fund amounts that do not meet the definition of the above four classifications and are deemed to be available for general use by the District and could report a surplus or deficit. In funds other than the General Fund, the unassigned classification is used to report a deficit fund balance.

(t) New Accounting Standards

- GASB has issued the following pronouncements which will be implemented in the years required. The effects of the implementation of these pronouncements are not known at this time.
- GASB has issued statement No. 91 "Conduct Debt Obligations." Effective for the year ending June 30, 2023.
- GASB has issued Statement No. 94 "Public-Private and Public-Private Partnerships and availability Payment Arrangements." Effective for the year ending June 30, 2023.
- GASB has issued Statement No. 96 "Subscription-Based Technology Arrangements." Effective for the year ending June 30, 2023.

Notes to Financial Statements, Continued

(1) Summary of Significant Accounting Policies, Continued

(t) New Accounting Standards, Continued

GASB has issued Statement No. 97 - "Certain Component Unit Criteria, and Accounting and Financial reporting for IRS Code section 457 Deferred Compensation Plans." Effective for the year ending June 30, 2023.

Statement No. 99 - Omnibus 2022. Effective for various periods through fiscal years beginning after June 15, 2023.

(u) Subsequent Events

The District has evaluated subsequent events through the date of the report which is the date the financial statements were available to be issued.

(v) Risks and Uncertainties

The United States is presently in the midst of a national health emergency related to the COVID-19 virus. The overall consequences on a national, regional and local level are unknown, but have the potential to result in a significant economic impact. The impact of this situation on the District and its future results and financial position is not presently determinable.

(2) Explanation of Certain Differences Between Governmental Fund Statements and District-Wide Statements

Due to the differences in the measurement focus and basis of accounting used in the governmental fund statements and the District-Wide statements, certain financial transactions are treated differently. The basic financial statements contain a full reconciliation of these items. The differences result primarily from the economic focus of the Statement of Activities, compared with the current financial resources focus of the governmental funds.

(a) Total Fund Balances of Governmental Funds vs. Net Position of Governmental Activities

Total fund balances of the District's governmental funds differ from net position of governmental activities reported in the Statement of Net Position. This difference primarily results from the additional long-term economic focus of the statement of net position versus the solely current financial resources focus of the governmental fund Balance Sheet.

(b) Statement of Revenue, Expenditures and Changes in Fund Balance vs. Statement of Activities

Differences between the governmental funds' Statement of Revenue, Expenditures and Changes in Fund Balance and the Statement of Activities fall into one of three broad categories. The amounts shown below represent:

Notes to Financial Statements, Continued

(2) Explanation of Certain Differences Between Governmental Fund Statements and District-Wide Statements, Continued

(b) Statement of Revenue, Expenditures and Changes in Fund Balance vs. Statement of Activities, Continued

(i) Long-Term Revenue Differences

Long-term revenue differences arise because governmental funds report revenue only when they are considered "available", whereas the statement of activities reports revenue when earned. Differences in long-term expenses arise because governmental funds report on a modified accrual basis, whereas the accrual basis of accounting is used on the Statement of Activities.

(ii) Capital Related Differences

Capital related differences include the difference between proceeds for the sale of capital assets reported on governmental fund statements and the gain or loss on the sale of assets as reported on the statement of activities, and the difference between recording an expenditure for the purchase of capital items in the governmental fund statements and depreciation expense on those items as recorded in the Statement of Activities.

(iii) Long-Term Debt Transaction Differences

Long-term debt transaction differences occur because both interest and principal payments are recorded as expenditures in the governmental fund statements, whereas interest payments are recorded in the Statement of Activities as incurred, and principal payments are recorded as a reduction of liabilities in the Statement of Net Position. Pension differences occur as a result of changes in the District's proportion of the collective net pension asset/liability and differences between the District's contributions and its proportionate share of the total contributions to the pension systems. Other postemployment benefits (OPEB) differences occur as a result of changes in the District's total OPEB liability and differences between the District's contributions and OPEB expense.

(3) Stewardship, Compliance and Accountability

(a) Budgets

The District administration prepares a proposed budget for approval by the Board of Education for the following governmental funds for which legal (appropriated) budgets are required:

The voters of the district approved the proposed appropriation budget for the General Fund. Appropriations are adopted at the program line item level.

Notes to Financial Statements, Continued

(3) Stewardship, Compliance and Accountability, Continued

(a) Budgets, Continued

Appropriations established by the adoption of the budget constitute a limitation on expenditures (and encumbrances) that may be incurred. Appropriations lapse at the end of the fiscal year unless expended or encumbered. Encumbrances will lapse if not expended in the subsequent year. Appropriations authorized for the current year are increased by the planned use of specific reserves, and budget amendments approved the Board of Education as a result of selected new revenue sources not included in the original budget (when permitted by law). These supplemental appropriations may occur subject to legal restrictions, of the Board approves them because of a need that exists which was not determined at the time the budget was adopted. No supplemental appropriations occurred during the year.

Budgets are adopted annually on a basis consistent with GAAP. Appropriations authorized for the year increased by the amount of encumbrances carried forward from the prior year.

Budgets are established and used for individual capital project funds expenditures as approved by a specific referendum of the District's voters. The maximum project amount authorized is based primarily upon the cost of the project, plus any requirements for external borrowings, not annual appropriations. These budgets do not lapse and are carried over to subsequent fiscal years until the completion of the projects.

(b) Encumbrances

Encumbrances accounting is used for budget control and monitoring purposes and is reported as a part of the governmental funds. Under this method, purchase orders, contracts, and other commitments for the expenditure of monies are recorded to reserve applicable appropriations. Outstanding encumbrances as of year-ends are presented as reservations of fund balance and do not represent expenditures or liabilities. These commitments will be honored in the subsequent period. Related expenditures are recognized at that time, as the liability is incurred or the commitment is paid.

The District's unreserved undesignated fund balance was in excess of the New York State Real Property Tax Law §1318 limit, which restricts it to an amount not greater than 4% of the District's budget for the upcoming school year. The district plans to address this by continuing to appropriate a responsible amount of fund balance annually to reduce the tax burden on its constituents.

Notes to Financial Statements, Continued

(4) Cash and Equivalents

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District has a specific policy for custodial credit risk; State statutes govern the District's investment policies, as discussed previously in these notes.

The District's aggregate bank balances are either insured or collateralized with securities held by the pledging financial institution as of June 30, 2022.

(5) Receivables

Due from State and Federal represents amounts due from New York State and the Federal government. Amounts due to the District at June 30, 2022 are listed below:

General Fund:

State aid - excess cost	\$ 442,255	
State aid - BOCES	753,478	
State aid - basic	<u>595,239</u>	\$ 1,790,972
Special Aid Fund - State and Federal grants - various		586,334
School Lunch Fund - State and Federal grants - related to		
food service program		154,797
Total		\$ 2,532,103

(6) Capital Assets

Capital asset balances and activity for the year ended June 30, 2022 were as follows:

	Beginning		Adjustments/	Ending
	Balance	Additions	Reclassifications	Balance
Governmental activities:				
Capital assets not being depreciated:				
Land	\$ 147,800	-	-	147,800

2024	190,265
2025	190,265
2026	470,865
Total	\$ 1,041,660

In the event that the District were to default on bond principal or interest payments, a court has the power, in proper and appropriate proceedings brought by the bond owner, to render judgment against the District. A court has the power to order payment of such bonds or notes from funds available or to order the District to take all lawful action to obtain the funds, including the raising of the funds in the next annual tax levy. The bond owner may also file with the New York State Comptroller a verified statement alleging default in the payment of principal or interest. The New York State Comptroller will have a duty to investigate the circumstances of the alleged default and prepare determinations from their office. The New York State Comptroller is required, under the conditions and to the extent prescribed by Section 99-b of the New York State Finance Law, to withhold state aid and assistance to the District and apply the amount thereof so withheld to the payment of the defaulted principal and interest.

(8) Pension Plans

(a) Plan Description and Benefits Provided

Employees' Retirement System (ERS)

The District participates in the New York State and Local Employees' Retirement System (ERS). This is a cost-sharing multiple-employer retirement system. ERS provides retirement benefits as well as death and disability benefits. The net position of ERS is held in the New York State Common Retirement Fund (the Fund), which was established to hold all net assets and record changes in plan net position allocated to ERS. The Comptroller of the State of New York serves as the trustee of the Fund and is the administrative head of ERS. System benefits are established under the provision of the New York State Retirement and Social Security Law (NYSRSSL). Once a public employer elects to participate in ERS, the election is irrevocable. The New York State Constitution provides that pension membership is a contractual relationship and plan benefits cannot be diminished or impaired. Benefits can be changed for future members only by enactment of a State statute. The District also participates in the Public Employees; Group Life Insurance Plan (GLIP), which provides death benefits in the form of life insurance. ERS is included in the State's financial report as a pension trust fund. That report, including information with regard to benefits provided, may be found at www.osc.state.ny.us/retire/publications/ index.php or obtained by writing to the New York State and Local Retirement System, 110 State Street, Albany, NY 12244.

Notes to Financial Statements, Continued

(8) Pension Plans, Continued

(a) Plan Descriptions and Benefits Provided, Continued

Teachers' Retirement System

The District participates in the New York State Teachers' Retirement System (TRS) (the System). This is a cost-sharing multiple-employer retirement system. The System provides retirement benefits as well as death and disability benefits to plan members and beneficiaries as authorized by the Education Law and the Retirement and Social Security Law of the State of New York. The System is governed by a 10 member Board of Trustees. System benefits are established under New York State Law. Membership is mandatory and automatic for all full-time teachers, teaching assistants, guidance counselors, and administrators employed in New York Public Schools and BOCES who elected to participate in TRS. Once a public employer elects to participate in the System, the election is irrevocable. The New York State Constitution provides that pension membership is a contractual relationship and plan benefits cannot be diminished or impaired. Benefits can be changed for future members only by enactment of a State statute. Additional information regarding the System may be obtained by writing to the New York State Teachers' Retirement System, 10 Corporate Woods Drive, Albany NY 12211-2395 or by referring to the NYSSTR Comprehensive Annual Financial report which can be found on the System's website at www.nystrs.org.

The systems are noncontributory except for employees who joined after July 27, 1976, who contribute 3 percent of their salary for the first ten years of membership, and employees who joined on or after January 1, 2010 who generally contribute 3.0 to 3.5 percent of their salary for their entire length of service. In addition, employee contribution rates under ERS tier VI vary based on a sliding salary scale. For ERS, the Comptroller annual certifies the actuarially determined rates expressly used in computing the employers' contributions based on salaries paid during the ERS' fiscal year ending March 31. For TRS, contribution rates are established annually by the New York State Teachers' Retirement Board pursuant to Article 11 of the Education law.

(b) Pension Assets, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2022, the District reported the following assets for its proportionate share of the net pension asset for each of TRS and ERS, respectively. The net pension asset was measured as of March 31, 2022 for ERS and June 30, 2021 for TRS. The total pension asset used to calculate the net pension asset was determined by an actuarial valuation. The District's proportion of the net pension asset was based on a projection of the District's long-term share of contributions to TRS and ERS relative to the projected contributions of all participating members, actuarially determined. This information was provided by ERS and TRS in reports provided to the District.

(c) Actuarial Assumptions

The total pension asset as of the measurement date was determined by using an actuarial valuation as noted in the table below, with update procedures used to roll forward the total pension liability to the measurement date. The actuarial valuations used the following actuarial assumptions:

	<u>ERS</u>	<u>TRS</u>
Measurement date	March 31, 2022	June 30, 2021
Actuarial valuation date	April 1, 2021	June 30, 2020
Investment rate of return (net of investment expense, including inflation)	5.90%	6.95%
Salary scale	4.40%	1.95% - 5.18%
Cost of living adjustments	1.4% annually	1.3%, annually
Inflation rate	2.70%	2.40%

For ERS, annuitant mortality rates are based on April 1, 2015 - March 31, 2020 System's experience with adjustments for mortality improvements based on the Society of Actuaries' Scale MP-2020. For TRS, annuitant mortality rates are based on plan member experience with adjustments for mortality improvements based on Society of Actuaries Scale MP-2020, applied on a generational basis. Active member mortality rates are based on plan member experience.

For ERS, the actuarial assumptions used in the April 1, 2021 valuation are based on the results of an actuarial experience study for the period April 1, 2015 - March 31, 2020. For TRS, the actuarial assumptions used in the June 30, 2021 valuation are based on the results of an actuarial experience study for the period July 1, 2015 - June 30, 2020.

The long-term rate of return on pension plan investments was determined in accordance with Actuarial Standard of Practice (ASOP) No. 27, Selections of Economic Assumptions for Measuring Pension Obligations. ASOP No. 27 provides guidance on the selection of an appropriate assumed investment rate of return. Consideration was given to expected future real rates of return (expected returns, net of investment expense and inflation) for each major asset class, as well as historical investment data and plan performance. Best estimates of the arithmetic real rates of return for each major asset class included in the target asset allocation as of the valuation date are summarized as follows:

Private debt	-	-	5.90%	1%
Real assets	5.80%	3%	-	-
Fixed income	-	23%	-	-
Opportunistic/Absolute Return Strategy	4.10%	3%	-	-
Credit	3.78%	4%	-	-
Cash	(1.00%)	1%	(0.20%)	1%

^{*} Real rates of return are net of a long-term inflation assumption of 2.4% for TRS and 2.5% for ERS.

(d) Discount Rate

The discount rate used to calculate the total pension asset was 5.9% for ERS and 6.95% for TRS. The projection of cash flows used to determine the discount rate assumes that contributions from plan members will be made at the current contribution rates and that contributions from employers will be made at statutorily required rates, actuarially. Based upon the assumptions, the Systems' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Employers' total pension liability	\$ (223,875)	(130,819)
Plan net position	<u>232,050</u>	<u>148,148</u>
Employers' net pension asset	\$ <u>8,175</u>	<u>17,329</u>
Ratio of plan net position to the employers'		
total pension asset	103.65%	113.2%

Notes to Financial Statements, Continued

(8) Pension Plans, Continued

(g) Contributions to the Pension Plans

ERS employer contributions are paid annually based on the System's fiscal year which ends on March 31st. Accrued retirement contributions as of June 30, 2022 represent the projected employer contribution for the period of April 1, 2022 through June 30, 2022 based on paid ERS wages multiplied by the employer's contribution rate, by tier. Accrued retirement contributions as of June 30, 2022 amounted to \$91,456. This amount has been recorded as a liability in the governmental fund statements and in the statement of net position. Retirement contributions paid to ERS for the year ended June 30, 2022 were \$420,425.

TRS employer and employee contributions for the fiscal year ended June 30, 2022 are paid to the System in September, October and November 2022 through a state aid intercept. Accrued retirement contributions as of June 30, 2022 represent employee and employer contributions for the fiscal year ended June 30, 2022 based on paid TRS wages multiplied by the employer's contribution rate, by tier and employee contributions for the fiscal year as reported to the TRS System. Accrued employer retirement contributions to TRS as of June 30, 2022 amounted to \$1,258,502 including employees' share. Retirement contributions paid to TRS for the year ended June 30, 2022 were \$1,197,137.

(9) Other Postemployment Benefits (OPEB)

(a) Plan Description and Benefits

The District's defined benefit OPEB plan, provides OPEB for all permanent full-time general and public safety employees of the District. The plan is a single-employer defined benefit OPEB plan administered by the District. Article 11 of the State Compiled Statutes grants the authority to establish and amend the benefit terms and financing requirements to the District Board. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75.

The District provides healthcare and life insurance benefits for retirees and their dependents. The benefit terms are dependent on which contract each employee falls under. The specifics of each contract are on file at the District offices and are available upon request.

(b) Employees Covered by Benefit Terms

At June 30, 2022, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefit payments	197
Active employees	215
	<u>412</u>

(c) Total OPEB Liability

The District's total OPEB liability of \$101,436,517 was measured as of July 1, 2021 and was determined by an actuarial valuation as of June 30, 2020.

Notes to Financial Statements, Continued

(9) Other Postemployment Benefits (OPEB), Continued

(d) Actuarial Assumptions and Other Inputs

The total OPEB liability in the June 30, 2020 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Salary increases By agreement

Discount rate 2.14%

Healthcare cost trend rates 7.0% for 2022, decreasing 0.4% per year to

an ultimate rate of 5.0% for 2027 and later

\$ 99 725 560

years

The discount rate was based on Bond Buyer GO-20 municipal bond index.

Morality rates were based on RP-2017 mortality table.

(e) Changes in the Total OPEB Liability

Balance at June 30, 2021

Darance at June 30, 2021	Ψ	77,123,300
Changes for the year:		
Service cost		1,640,209
Interest		2,189,494
Changes in assumptions		828,343
Benefit payments		(2,947,089)
Net change		1,710,957
Balance at June 30, 2022	\$	101,436,517

(f) Sensitivity of the Total OPEB liability to Changes in the Discount Rate

The following presents the total OPEB liability of the District, as well as what the District's total OPEB liability would be if it were calculated using a discount rate that is 1-percentage point lower (1.14%) or 1-percentage point higher (3.14%) than the current discount rate:

	1%	Current	1%
	<u>Decrease</u>	<u>Rate</u>	<u>Increase</u>
Total OPEB liability	\$ (<u>113,473,009</u>)	(<u>101,436,517</u>)	(<u>87,285,876</u>)

(g) Sensitivity of the Total OPEB Liability to Change in the Healthcare Cost Trend Rates

The following presents the total OPEB liability of the District, as well as what the District's total OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage point lower or 1-percentage point higher than the current healthcare cost trend rate:

	1%	Current	1%
	<u>Decrease</u>	Rate	<u>Increase</u>
Total OPEB liability	\$ (<u>88,612,894</u>)	(<u>101,436,517</u>)	(<u>113,294,326</u>)

Notes to Financial Statements, Continued

(9) Other Postemployment Benefits (OPEB), Continued

(h) OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2022 the District recognized OPEB expense of \$7,618,770. At June 30, 2022 the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred	Deferred
	Outflows of	Inflows of
	Resources	Resources
Differences between expected and actual experience	\$ 12,354,007	-
Changes in assumptions	9,130,865	-
Contributions subsequent to the measurement date	3,035,501	
	\$ <u>24,520,373</u>	

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year ending	
2023	\$ 5,435,213
2024	5,435,213
2025	3,829,337
2026	3,333,389
2027	3,333,389
Thereafter	118,331
	\$ 21,484,872

(10) Interfund Activity

Interfund receivables, payables and advances at June 30, 2022 are as follows:

	Interfund	Interfund
	<u>Receivable</u>	<u>Payable</u>
General fund	\$ -	183,971
Capital projects fund	545,455	-
Special aid fund	-	<u>361,484</u>
Total	\$ <u>545,455</u>	<u>545,455</u>

Interfund receivables and payables are eliminated on the statement of net position.

Notes to Financial Statements, Continued

(10) Interfund Activity, Continued

The District typically loans resources between funds for the purpose of mitigating the effects of transient cash flow issues.

Interfund transfers for the year end at June 30, 2022 consisted of the following:

	<u>Transfers In</u>	Transfers Out
General fund	\$ 28,914	-
Special aid fund	- _	<u>28,914</u>
Total	\$ 28,914	<u>28,914</u>

Transfers are used to (1) move revenue from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them, (2) move receipts restricted to debt service from the funds collecting the receipts to the debt service fund as debt service payments become due, and (3) move residual cash from closed projects to debt service to be used for debt payments at a later date.

(11) Risk Management

The District is exposed to various risks of loss related to torts, theft, damage, injuries, errors and omissions, natural disasters, and other risks. These risks are covered by commercial insurance purchased from independent third parties. Settled claims from these risks have not exceeded commercial insurance coverage for the past two years.

(12) Contingencies and Commitments

The District has received grants, which are subject to audit by agencies of the State and federal governments. Such audits may result in disallowances and a request for a return of funds. Based on prior audits, the District's administration believes disallowances, if any, will be immaterial.

Notes to Financial Statements, Continued

(13) Correction of Errors

The District made corrections to certain June 30, 2021 balances. Grant expenditures were incurred, however, the corresponding revenue and receivables were not recorded. Long-term compensated absences were recorded in the General Fund opposed to the Statement of Net Position. Only compensated absences expected to be paid within one year should be recorded in the General Fund. The extraclassroom and scholarship activities are considered a governmental fund under GASB Statement No. 84. The extraclassroom activities were excluded from the June 30, 2021 financial statements and the scholarships were reported as a fiduciary fund. Bond premiums received from bond issuances are liabilities and are amortized over the life of the bonds as a component of interest expense. Installment purchase agreements for vehicles are a long-term liability.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Board of Education Schuylerville Central School District:

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in <u>Government Auditing Standards</u>, issued by the Comptroller General of the United States, the financial statements of the governmental activities and each major fund of the Schuylerville Central School District (the District), as of and for the year ended June 30, 2022, and the related notes to financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated October 17, 2022.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matters that is required to be reported under <u>Government Auditing Standards</u> and which is described in the accompanying schedule of findings and questioned costs as item 2022-001.

District's Response to the Finding

Government Auditing Standards requires the auditor to perform limited procedures on the District's response to the finding identified in our audit and described in the accompanying schedule of findings and questioned costs. The District's response was not subjected to the other auditing procedures applied in the audit of the financial statements and accordingly, we express no opinion on the response.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with <u>Government Auditing Standards</u> in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

The Board of Education Schuylerville Central School District:

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Schuylerville Central School District's (the District) compliance with the types of compliance requirements identified as subject to audit in the OMB Compliance Supplement that could have a direct and material effect on the District's major federal program for the year ended June 30, 2022. The District's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended June 30, 2022.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Our responsibilities under those standards and the Uniform Guidance are further described in the Auditors' Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of ·contracts or grant agreements applicable to the District's federal programs.

Auditors' Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, Government Auditing Standards, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, <u>Government Auditing Standards</u>, and the Uniform Guidance, we

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and
 design and perform audit procedures responsive to those risks. Such procedures include
 examining, on a test basis, evidence regarding the District's compliance with the compliance
 requirements referred to above and performing such other procedures as we considered
 necessary in the circumstances.
- Obtain an understanding of the District's internal control over compliance relevant to the
 audit in order to design audit procedures that are appropriate in the circumstances and to test
 and report on internal control over compliance in accordance with the Uniform Guidance,
 but not for the purpose of expressing an opinion on the effectiveness of the District's internal
 control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance,

such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditors' Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

See accompanying notes to schedule of expenditures of federal awards.

Notes to Schedule of Expenditures of Federal Awards
June 30, 2022

(1) Summary of Significant Accounting Policies

The accompanying schedule of expenditures of federal awards presents the activity of federal award programs administered by the District, which is described in note 1 to the District's accompanying financial statements, using the modified accrual basis of accounting. Federal awards that are included in the schedule may be received directly from federal agencies, as well as federal awards that are passed through from other government agencies. The information is presented in accordance with the requirements of the Uniform Guidance.

Matching costs (the District's share of certain program costs) are not included in the reported expenditures.

The amounts reported as federal expenditures were obtained from the federal financial reports for the applicable program and periods. The amounts reported in the schedule of expenditures of federal awards are prepared from records maintained for each program, which are reconciled with the District's financial reporting system.

(2) Subrecipients

No amounts were provided to subrecipients.

(3) Nonmonetary Federal Program

The District is the recipient of a federal award program (Assistance Listing No. 10.555) that does not result in cash receipts or disbursements termed a "nonmonetary program." During the year ended June 30, 2022, the District used \$74,299 worth of food commodities as reported in the schedule of expenditures of federal awards.

(4) Indirect Costs

Indirect costs are included in the reported expenditures to the extent that such costs are included in the Federal financial reports used as the source for the data presented. The District does not use the 10% de minimis election.

rart II	I - FEDERAL AWARD FINDINGS AND QUESTIONED COS	SIS SECTION

Schedule of Findings and Questioned Costs, Continued

Reference: 2022-001

<u>Criteria</u> - NYS Real Property Tax Law §1318 limits the amount of unexpended surplus funds a District can retain to no more than 4% of the District's budget of the General Fund for the ensuing fiscal year. Nonspendable and restricted fund balance of the General Fund are excluded from the 4% limitation. Amounts assigned for the subsequent year and encumbrances are also excluded from the 4% limitation.

<u>Condition</u> - The District's unrestricted fund balance at June 30, 2022 after excluding amounts assigned for the subsequent year end and encumbrances, was in excess of the New York State Real Property Tax Law §1318 limit. For the fiscal year ended June 30, 2022, this portion of the District's unrestricted fund balance was \$5,677,515, which is 14.70% of the 2022-23 voter approved General Fund budget.

Cause - Expenditures were less than budgeted for several years.

Effect - The District is not in compliance with NYS Real Property Tax Law §1318.

<u>Recommendation</u> - We recommend that the District develop a plan to rationally appropriate unassigned fund balance so as to be in compliance with NYS Real Property Tax Law §1318.

Management Response - The District will evaluate its budget and reserve fund balances.

Status of Prior Audit Findings Year ended June 30, 2022

There were no audit findings disclosed in the prior year financial statements (June 30, 2021) that were audited by other auditors. The District's General Fund unassigned fund balance was in excess of 4% of the 2021-2022 budgeted appropriations as of June 30, 2021. As of June 30, 2022 the District remains in excess of 4% and therefore is identified as finding 2022-001 in the Schedule of Findings and Questioned Costs.

oga Battle Monument at Schwylerville
OLD SARATOGA 1777

<u>Criteria</u> - NYS Real Property Tax Law §1318 limits the amount of unexpended surplus funds a District can retain to no more than 4% of the District's budget of the General Fund for the ensuing fiscal year. Nonspendable and restricted fund balance of the General Fund are excluded from the 4% limitation. Amounts assigned for the subsequent year and encumbrances are also excluded from the 4% limitation. Unrestricted fund balance was \$5,677,515, which is 14.70% of the 2022-23 voter approved General Fund budget.

Corrective Action Plan

The District acknowledges this recommendation and is aware of the recommendation. The Assistant Superintendent for Business, Christine Burke, is the responsible party for the District's financial statements. She will work with the Superintendent, Gregg Barthelmas, as well as the Building and Grounds Supervisor, Paul Irish, on creating a plan to be in compilance with NYS Real Property Tax Law §1318. This plan will be to address the building condition survey and any other one-time only projects addressing the needs of each building. In addition, the Assistant Superintendent for Business will monitor the budget, as well as the fund balance classification on a regular basis. The District will follow all necessay steps before spending down the fund balance. In order to be in compliance with the New York State Real Property Tax Law §1318, the anticipated completion would be prior to June 30, 2023; however, with supply/demand and timing this may extend past that timeline.

Ohnstine Burke
