Class Rank

All students are ranked at the conclusion of their junior year and again in March of their senior year. All courses are included in the calculation of student grade point averages, with the exception of Physical Education, Edmentum online courses, and alpha graded college level courses. No weighting system is used for advanced and accelerated academic work.

College Entrance Examination Board (CEEB) Code: 335140

Initial Ranking: Based on three complete years of academic work (quarterly averages and final exams.)

March Ranking: Includes data from September GPA plus three quarters of academic work from a student's senior year. This calculation is used to post final class rankings.

Marking Periods, Credit & Grading

Four marking periods comprise 180 days of instruction; each marking period is 10 weeks in length. Credits are awarded on an annual basis with one unit being awarded for successful completion of the 180-day academic year.

Grade Information

65% is passing. Final grade is determined using final exam grades and the averages over four marking periods, which are weighted equally. If the Regents exam score is higher than yearly average, the higher score is used.
